

WHATS A WRECK CHASER?

Wreck chasers are area tow truck operators who prey upon people who are unfortunate enough to be involved in an accident.

At most accident scenes, people tend to be upset after being involved in a collision. Promises are made by these operators regarding the care and custody of your damaged vehicle. With or without your permission they then take your vehicle to their location or a repair shop they consider to be friendly to them.

If you later decide to have the vehicle removed to a shop of your choice, exorbitant fees may be charged and need to be paid (in cash) before you are able to retrieve your vehicle.

Beware before you find yourself in a situation where your car is being held for ransom like charges!!!

Contact us immediately to accommodate your urgent needs before you find yourself in this kind of a situation.
